The Camp Creek Sunday School Picnic a Great Success--Good Speeches and a Splendid Dinner.

Editor The Lancaster News—Please allow me space in your valuable columns to say that I had the pleasure of being present at the Sunday school picnic at Camp Creek, in the Creek section, last Saturday. Your humble servant had the pleasure of meeting with quite a number of friends and acquaintances and met with a hearty welcome from them all.

At 10 o'clock the Sunday school was called into the church and there arranged in proper position, and Photographer W. A. Davis being present, with his instrument in readiness, he proceeded to make a negative of the Sunday school. Then all were marched out to the front, rearranged and a second negative made of the school and church. The congregation again assembled in the church, and the object of the meeting explained by the chairman, Mr. A. M. L. Hallman. The meeting was then opened with prayer by Bro. Sapp.

The first speaker introduced by Chairman Hallman was Mr. Claude Sapp, who promptly responded and made a very able address to the Sunday school—one that would reflect credit on any community and honor to himself.

Next introduced was Mr. A. C. Rowell, who addressed the Sunday school in an able, graceful manner, which reflected credit on himself and the school as well.

The next speaker introduced was Mr. Joseph K. Connors, who promptly responded and made a talk to the Sunday school, which was very impressive to the children and older ones as well. Yes, Mr. Connors' talk was not lengthy, but it was to the point and in the spirit.

The next speaker was Mr. Lewis Mobley, of Heath Springs, who also responded promptly in a short address that was very appropriate and delivered in a graceful manner.

This concluded the speaking and the crowd was dismissed from the church.

Then a bounteous dinner of the most delicious things was spread under the massive oaks that cover the churchyard. All present were welcomed and partook of the many good things.

It is always a pleasure to your correspondent to visit Camp Creek and meet her noble, generous people. May they live to enjoy many more such occasions.

The Winthrop Examination.

The result of the Winthrop College entrance and scholarship examination held on the 3rd instant has not yet been announced, and will not likely be before August 1. The delay, it is said, has been caused by the failure of the superintendents of education in some counties to send in promptly the papers for examination. Altogether, throughout the State, 693 young women took the examination. There are 52 vacant scholarships.

A negro, named Jack Nisbet was shot and instantly killed at Great Falls last Saturday by Policeman Smyrrh, while resisting arrest on the charge of gambling. The ball, which was fired from a pistol of large calibre, is said to have entered the back of the head and passed out through the forehead.

The negro at one time had worked at the Falls but had been discharged and warned not to come on the premises again, which warning he heeded for a while, but returned Saturday. He was reported to Policeman Smyrrh as being engaged in gambling and when the officer went to arrest him he resisted, with the result as stated. Mr. Smyrrh is now in jail at Chester.

The County Line Survey.

From present indications the survey being made of the line between Lancaster and Kershaw counties by Civil Engineers Wilson, Dwight and Colcock, appointed by the governor, will result favorably to Lancaster's contention that the town of Kershaw lies in this county. We are informed that the surveyors have located the corner at Hanging Rock creek just beyond the bridge across the stream on the old stage road between Lancaster and Camden, whereas the corner as located in a survey made by Kershaw county last year is 300 yards this side of the bridge. Of course, the farther south the corner is located the better for Lancaster.

Much Needed Rains This Week.

A fine rain, accompanied by considerable wind, lightning and thunder, visited this locality and the eastern and north-eastern sections of the county late Monday afternoon. The rain did not extend southward and westward more than two or three miles from town. During the storm a large oak tree in the yard of Judge Ernest Moore, in East End, near Chesterfield avenue, was shattered by a bolt of lightning. Huge sections of bark were hurled 50 or more yards, some of them striking the fence and knocking off some new plank.

Charlotte's Sensations.

Charlotte has been wrestling with two sensations during the past few days. Miss Mattie Havis, stenographer for the Charlotte Supply Company, mysteriously disappeared Friday. The young lady was traced as far as Union, this State, where the trail was lost. It is not known why she suddenly left home. The following afternoon a young married man, Mr. John L. Boyd, collector for a furniture house, likewise disappeared, leaving a note for his wife to the effect that he had to leave home. He returned Sunday night however. He had been in Atlanta and said he didn't know anything about his departure from home—that his whole experience was a blank to him.

Later—The missing young woman was found in Columbia Monday afternoon, in the waiting room at the Union Station, "bare headed and in a dreamy, disconsolate mood," says the State of yesterday.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. He came to the house where his wife and her children were, cursing and declaring that he would kill every one in the house and shot through a window several times. As he was going around to try to get in at the other side, the boy suddenly opened the door and fired, killing him. In making examination, Dr. A. M. Wylie found an encysted bullet which had been shot into his body before.
